

Children's Literature 2016

Background

The National Library of Ireland (NLI) has been collecting Irish websites since 2011. The web archive aims to capture a record of the online life of Ireland in 2016. It also aims to complement the NLI's existing collections of Irish children's authors and illustrators that form part of the printed, manuscript and prints and drawings collections. It frequently collects literary websites and in 2016, the decision was undertaken to collect websites regarding children's literature in Ireland.
